YURIY G. / fijimlk

WEB3 COMMUNITY & ECOSYSTEM MANAGER | MARKETING & TECHNICAL OPERATIONS

X: x.com/fijimlk • Telegram: t.me/fijimlk

PROFILE

Web3 professional active in the ecosystem since 2020, with hands-on experience in marketing leadership, regional community operations, ambassador programs, KOL outreach and technical product development. Combines people-focused ecosystem work with practical software and automation skills.

EXPERIENCE

AXIS ROBOTICS | Cardinal — Community Operations Contributor

Jan – Oct 2026

Organized and hosted events and AMA sessions for the Russian-speaking community. Collaborated directly with the Community Manager and provided organizational recommendations adopted in community operations.

QUASARCAPITAL | Marketing Lead

2023 – 2024

Led marketing operations in collaboration with the project team; recruited and managed two moderators; coordinated KOL partnerships; helped grow Discord to approximately 10,000 members; organized four AMAs with approximately 20–40 participants each.

SUPRA ORACLES | Official Ambassador

2021 – 2022

Created educational and promotional content, localized project materials, organized activities and supported community members.

MOONBEAM | Official Ambassador

2020 – 2021

Produced articles and educational content, translated resources, organized community activities and supported regional onboarding.

SELECTED TECHNICAL PROJECTS

X Reply Assistant. Independently developed and published an AI-assisted Chrome extension for social media workflows, custom personas, API integrations and configurable automation.

Ritual Market Signal Engine. Built a Web3 prototype integrating market data, AI analysis, smart contracts and onchain signals.

Blockchain Utilities. Developed Python and Go tools for blockchain data analysis, wallet operations, RPC integrations and automation.

CORE SKILLS

Community operations • Ecosystem engagement • KOL partnerships • Marketing coordination • Content and localization • AMA and event organization • Community onboarding • Python • JavaScript / TypeScript • Go • REST APIs • Web3 integrations
